

Activities Policy

The children I provide care and education for will be given opportunities to make progress in:

Prime areas:

Personal, social and emotional development

Communication and language

Physical development

Specific areas:

Understanding the world

Mathematics

Literacy

Expressive arts and design

I will offer learning activities and experiences through play and exploration of their environment both indoors and outdoors.

I will offer a range of first hand experience to extend their learning and development during everyday routines.

I will always give praise and encouragement for their achievements.

The children will be able to choose activities within a range suitable for their age and stage of development taking into account individual interests.

I offer inclusive practice regardless of gender, ethnic origins, cultural or social background or disability.

I will help children to learn, value and have positive attitudes towards people different from themselves.

Information about their progress and learning will be shared with the children's families.
