

## **ACTIVITIES POLICY**

The children I provide care and education for will be given opportunities to make progress in:

- Personal, social and emotional development
- Communication, language and literacy
- Mathematical development
- Knowledge and understanding of the world
- Physical development
- Creative development

to enable them to work towards the Early Years Foundation Stage.

I will offer learning activities and experiences through play and exploration of their environment, indoors and outdoors.

I will offer a range of first-hand experience to extend their learning and development during everyday routines.

They will have the opportunity to play and learn in a safe, secure environment.

I will always give praise and encouragement for their achievements.

The children will be able to choose activities within a range suitable for their age and stage of development, taking into account individual interests.

I offer inclusive practice regardless of gender, ethnic origins, cultural or social background or disability.

I will help children to learn to value and have positive attitudes towards people different from themselves.

Information about their progress and learning will be shared with the children's families.
