

Observations policy

I plan relevant and motivating learning experiences and activities for the children in my care in order that they may make progress in accordance with the Early Years Foundation Stage. In order to do this, I have to make observations and assessments to determine which stage they are at and their interests.

My observations will be made with reference to the Early Years Foundation Stage practice guidance and will include regular written observations and photographs.

All observations are made to support each child enjoy and achieve and are shared with parents on a regular basis.

Each parent is requested to sign a permission form at the beginning of placement in order that these observations may be carried out.
